

With Dunlop FireBrake[®]
carpet cushion, you can
safely walk on water.

**Dunlop FireBrake[®] is the only
Australian made carpet cushion to comply
with IMO safety standards.**

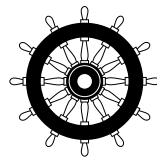

Australia's leading innovator in carpet cushion, flooring adhesives and installation systems has introduced FireBrake[®], a carpet cushion specifically manufactured for commercial marine applications.

Dunlop FireBrake[®] has been certified by an internationally accredited testing facility for meeting the prescribed standards on flammability, smoke and toxicity as set out by the International Maritime Organisation and the EU Council Directive 96/98/EC (amended by 2002/75/EC) for primary deck coverings.

Providing outstanding underfoot comfort, support and resilience to optimise carpet life, Dunlop FireBrake[®] is also 100% recyclable, and meets the highest internationally accepted standards on VOC emissions for carpet cushion.
